

Package: isnullptr (via r-universe)

October 22, 2024

Title Check if an 'externalptr' is a Null Pointer

Version 1.0.2

Description Check if an 'externalptr' is a null pointer. R does currently not have a native function for that purpose. This package contains a C function that returns TRUE in case of a null pointer.

Depends R (>= 3.0)

License GPL-3

Encoding UTF-8

RoxygenNote 7.3.2

Contents

isnullptr 1

Index 3

isnullptr *Check if an 'externalptr' is a null pointer*

Description

isnullptr checks if an object of type 'externalptr' is a null pointer.

Usage

isnullptr(pointer)

Arguments

pointer object of type 'externalptr'

Value

TRUE if null pointer, FALSE otherwise

Examples

```
isnullptr(new("externalptr"))  
isnullptr("any_data")
```

Index

`isnullptr`, 1
